

Pumps & Systems Readers Learn How Blackmer® Pumping Technology Reduces Energy Costs

[PD Vane Pumps Bulletin \(PDF\)](#)

Energy costs are a fact of life. But in these days of rising costs, ignoring the negative affects that energy expenses can have on your bottom line is no longer acceptable. That's why Blackmer®, Grand Rapids, MI, recently created a series of "Smart Energy" white papers that have been designed to highlight how the company's various pumping technologies can help lower energy costs across many industries.

[Smart Energy White Paper Part 1 \(PDF\)](#)

The second white paper in the Smart Energy series recently appeared in the March 2009 issue of *Pumps & Systems* magazine.

(Smart Energy series: Part 1)

Blackmer's Smart Energy white paper series focuses on how choosing the appropriate pumping technology for various applications can lead to reduced energy use and costs, which are benefits to not only a company's bottom line, but the environment, as well. Series of this type are one of the many ways that Blackmer is enhancing its publicity efforts, all of which are designed to give your customers clear examples of how PSG™ pumping technologies are the best for their many applications.
