Pump Models: STX3-DEF and STX1220A-DEF

Applicable Standard: ISO 22241-3:2008(E)  
Diesel engines - Nox reduction agent AUS 32  
Part 3: Handling, transportation and storage

This certifies that the Blackmer model STX3-DEF pump is in compliance with the ISO standard listed above; specifically section 4.1.2 - Recommended Materials and has been rinsed with deionized water in accordance with section 4.3-Cleanness of surfaces in contact with AUS 32. It is the end users responsibility to perform final rinsing before putting the unit in service.
